

KEEPING GOD AT THE CENTER

2020 IN REVIEW

GOD CENTERED LIFE

I had a lot of “kitchen work” to do this morning and I listened to *The God Centered Life* for the first time. He is a great teacher! He’s very straightforward and addresses current situations. I like the history he teaches to make it all come together. I think it’s a great new addition.

Why *The God Centered Life*?

Some thoughts from Josh Moody

THE TIME IS NOW. There has never been a greater need for a wide dispersal of God's Word than today. We abound in confusion as different ideas and philosophies and modes of living are constantly proposed to us in this "information age" in which we all live.

Though we are swimming (if not drowning) in information, the age in which we live is not a wisdom age, nor an age of discernment. People are confused. They are like sheep without a shepherd. The ability to sieve through false ideas is waning—hence the prevalence of conspiracy theories, the strangeness of some so-called church models, the lifestyle choices that people make that will shipwreck their future and damage their present.

What we need, what the world needs, and what the church needs is the shining bright clarity of God's Word. To cut through all the confusion and call people to center their lives back on God. When we do that, when we build the houses of our lives upon the rock of Christ and his Word, then we are secure and safe against all the slings and arrows of outrageous fortune, and saved now and forever. We have a purpose: something to live for.

People are drifting, without a mission, without a calling, without a cause for which to live. And all this comes back to the great need of this, our time (and any time): God's Word, as far and wide as possible, proclaimed to the four corners of the earth.

How Media Ministries Work

Over 92% of Americans listen to the radio at least once a week, and podcasts and online listening are rising. For people reached per dollar spent, there is no better bargain today than a quality audio Bible teaching program to touch lives with the gospel. Every media ministry begins with a committed base of supporters that help during the launch phase. As the listening audience begins to support the costs, the program can expand to new markets. *God Centered Life* is completely dependent upon the partnership of friends of the ministry for daily operations.
